## Traffic Monitoring Project

Trick the Traffic

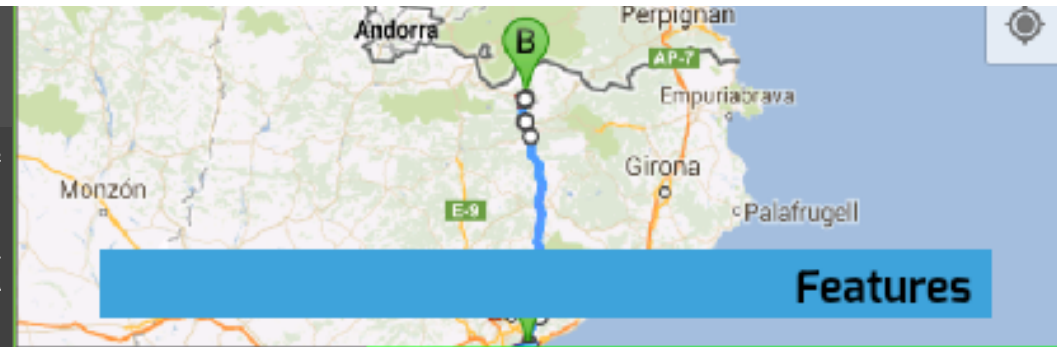

## About the Project

We face traffic everyday in our life! Honestly we wonder sometimes, "is there any way we can trick the traffic or fly like Superman?" Well, we offer a solution for tricking the traffic!

Our Website and Android application provides a smartest solution of guiding you out of traffic. Also if you are trapped in traffic, it will provide nearby restaurants to stop by. When you reach your destination, the parking lots available in the locality will be shown.

Want to plan your trip? We give you the traffic prediction for your future trip so that you trick the traffic like a boss!

All of these with just a click!

## Features

Latest Reported Incidents including "Police data"

Navigate to your destination and search for congestion along your path, for all New Jersey area by "Day" and "Hour".

Weekly Trends for selected zipcode

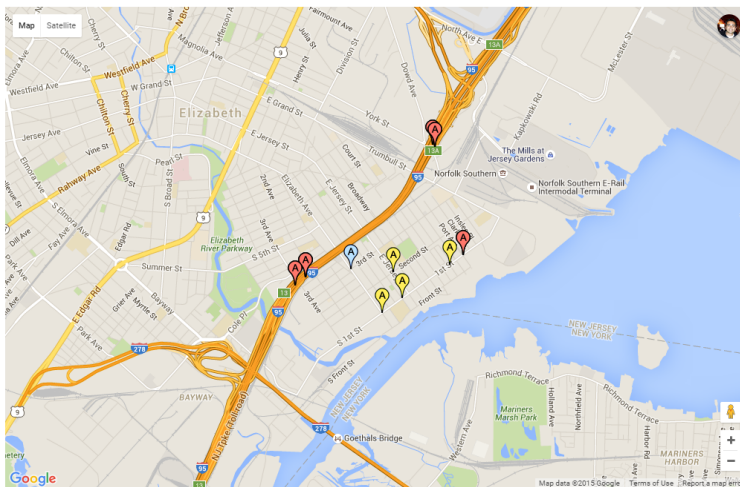

Application for your android phone.
